

5 WAYS TO KEEP YOUR EXAMS **SECURE**

Ensure the integrity of online exams
with Digify

1

Maintain Fairness with the Same Exam Duration with Self-Destruct timers

Enforce the same exam duration for all students to work on the questions by setting documents to self-destruct after opening.

2

Prevent Leakage of Exam Documents with Document Security

Protect your exam documents with features that restrict copying, forwarding, downloading, printing, and automated watermarking.

3

Discourage Screenshots of Questions During Exams with ScreenShield

Discourage screenshots with Digify's patented ScreenShield. Only one question can be viewed at a time.

4

Check the Identities of Participants with Email Verification

Ensure only the right parties have access to exam documents by limiting and revoking access as well as adding email verification.

5

Identify Suspicious Activities with Detailed Tracking

Track where and when students are taking the exam using advanced document statistics to minimize suspicious behaviors.
